Prerequisite: EDUC 2007 Educational Research

This course provides an opportunity for students to integrate and synthesize their learning by conducting an individual independent project on a significant issue related to education. The project can be an empirical study, a literature review and discussion on specific concepts or theories, a classroom-based investigation, an action research project, or other relevant areas proposed by students, subject to approval by project supervisors.

By the end of the final academic year, students are required to submit a final written report of about 7,000 to 10,000 words in English.

EDUC 7020 Psychological Foundations of (2,2,0) (E) Teaching and Learning

This course provides an orientation to the current psychological models that describe and explain human learning and instruction. Students are expected to extrapolate relevant information generated in psychological and educational research on learning motivation and teaching practice, describe a developmentally eclectic framework in human learning, and identify strategies that offer possible solutions to selected classroom problems.

EDUC 7030 Teacher Self Development (2,2,0) (C) This course aims at promoting among students interest in and readiness for taking charge of their personal development. It draws attention to the significance of mental and physical health to teaching life and highlights a number of focuses for teachers' personal development.

EDUC 7040 Social Foundations of Education (2,2,0) (E) This course aims at providing a sociological framework for understanding the relationship between society and education. It examines social, cultural, political and economic influences on education.

EDUC 7050 Philosophical Foundations of (2,2,0) (C) Education

This course is an introduction to both Chinese and Western philosophical issues related to education. It aims to enhance students' ability to reflect philosophically on teaching and learning, to think critically about various schools of educational thoughts, and to identify curricula and methods of instruction in relation to particular philosophical positions.

EDUC 7070 Student Self Development (2,2,0) (C) This course studies the dynamics and processes of self development in adolescents. A major emphasis is on self evaluation and peer evaluation as effective means of achieving self-understanding.

EDUC 7100 Education System and Policy in (2,2,0) (C) Hong Kong

This course covers the dominant features of the system and policy of education in Hong Kong in the postwar period. Major changes and development of the education system and policy would also be discussed.

EDUC 7110 Psychology of Adolescence (2,2,0) (C) This course aims at increasing students' understanding of the major psychological aspects of adolescent development. It focuses on physical, cognitive, personality and social development throughout adolescence.

EDUC 7130 School Management and Decision- (2,2,0) (E) Making

This is a practical course that should focus on studying various management concepts, models and skills which could help teachers to manage the school matters properly and fulfill the needs of the school missions and visions. From general sense, this course is designed for experienced teachers whom may be the middle managers or would be promoted later on. On the other hand, the design of this course is also suitable for new teachers to study, because the course built-in various learning strategies to suit the different needs of our student-teachers.

EDUC 7140 Teaching as a Profession (2,2,0) (C) This course focuses on the role of teachers as professional educators and reviews the process of professionalization of teaching in Hong Kong against a background of the international professionalization of teachers. The course reviews sociological, psychological and political perspectives on professions and professionalism and evaluates arguments for and against accepting teachers as professionals.

EDUC 7150 Creative and Critical Thinking (2,2,0) (C) This course aims to enhance the thinking skills and inclinations of students by familiarizing them with the nature of thinking, processes of thinking and the methods used for developing thinking capacities. It provides them with opportunities for reflecting on their own thinking as well as exploring different approaches to the teaching of thinking skills.

EDUC 7170 School Guidance

This course introduces to student-teachers an overview of guidance and counselling services in secondary schools. Focus is placed on underlying principles, goals, process, techniques, developmental programmes and ethical responsibility.

EDUC 7180 Action Learning in the Classroom (2,2,0) (E) This course aims at familiarizing students with the nature and methodology of action learning in the classroom. Action learning is a continuous process of learning and reflection which aims at improving educational practices to enhance student learning. The course further aims at fostering students' critical reflection on classroom practices and at developing their abilities to improve those practices.

EDUC 7200 Information Technology in Education (2,2,0) This course explores the potential of information and communication technology (ICT) in education, focusing on its application and impact on teaching and learning. The course aims at enhancing student-teachers' understanding of the prospects and problems of applying ICT in education, and developing skills and confidence in student-teachers to use the technology in the school setting. Emphasis will be placed on the use of ICT in teaching and learning to empower teachers as facilitators in the use of technology to enhance learning and teaching.

EDUC 7210 Foundations of Information (2,2,0) (C) Technology in Education

This course introduces learning theory and pedagogy relevant to the effective and appropriate use of information and communication technology in schools. It looks at related issues and obstacle of adopting technologies inside and outside classroom and the impact that may have on student learning. This course also provides practical knowledge and skills in the use of technology to support learning and teaching.

EDUC 7230 Advanced Communication Skills (2,2,0) (C) Prerequisite: EDUC 2005 Classroom Communication and Management

This course builds on the course EDUC 2005 Classroom Communication and Management. It begins with an overview of the fundamentals of communication set in a wider context and moves on to practical applications.

EDUC 7250 Inclusive Education (2,2,0) (C) This course introduces students to the study of the inclusion of students with special needs and explores the development and the role of inclusive education in the context of a whole school approach. It also aims to enhance student-teachers' understanding of the individual requirements of students with diverse needs. Emphasis is placed on effective classroom strategies that have been used by teachers, schools, and communities that have been most effective in the implementation of their inclusion policies. It is
