

HRM 7330 Skills for Managing Human Resources (3,3,0)
Students will be equipped with concepts, skills and techniques of workplace learning, motivating and developing members of organizations. In addition, students will also acquire skills in dealing with difficult interpersonal/group situations such as conflict, ethical dilemmas, organizational politics, negotiation, collective bargaining and media handling. Throughout, the focus will be on how these concepts are applied to the Asia/Pacific region.

HRM 7340 International Human Resources Management (3,3,0)

In this course, students will be exposed to critical issues in managing human resources. Topics will include market dynamics, problems encountered by FIEs manpower planning strategy, compensations and benefits, ethics and safety, and globalization of HRM. Again, stress will be placed on how these concepts relate to the Asia/Pacific region. This course is designed to provide students with knowledge, issues and skills for designing and managing expatriate assignments and managing cultural diversity. Special emphasis will be placed on the linkage between global HRM practices and policies and international expansion strategies. This course will cover key issues in international employee relations, comparative HRM practices, and multinational corporate ethical responsibility as related to HRM.

HRM 7360 Strategic Human Resources Management in Practice (3,3,0)

In this course, global HR strategy will be regarded as an integrating force, linking various strands together into an overall strategic thrust which complements and is consistent with the overall business strategy. The links between each aspect of a strategy will be emphasized and various communications channels will be suggested, as HR strategy should flow from business strategy.

HRM 7370 Human Resources Research and Information (3,3,0)

This course introduces to students the fundamental concepts needed for using statistics in human resources management. Students acquire the technical knowledge and know how to conduct practical research studies with scientific validity. This course also covers development and implementation of HR information management systems capable of ensuring the right people are effectively recruited, deployed and supported.

HRM 7380 Human Resources Measurement (3,3,0)

This course introduces concepts and techniques needed in making decisions to maximizing human capital. Students will learn how to audit HR activities and functions through measurements and tests, applying relevant methods in HR research techniques to improve organizational effectiveness and well-being.

HRM 7390 Current Employment Practices in China (3,3,0) (P)

This course focuses on the human resources issues and problems encountered by international companies in mainland China today. It introduces to the students current and practical issues regarding employment and HRM in mainland China. This course prepares participants to make decisions on various HR policies and practices such as recruitment of local employees and management of expatriates, performance and rewards, management development and localization, and the complexities of PRC labour law.

HRM 7410 Ethics in Strategic Human Resources Management (3,*,0)

This course aims to enhance students' ethical awareness and sensitivity, and to facilitate the development of moral judgment and obligation in the workplace. It examines ethical HRM practices and the roles of HR professionals in promoting ethical practices with a view to achieving employee well-being, work engagement and organizational performance. Special

emphasis is placed on creating and maintaining an ethical work environment.

HRM 7420 Employee engagement and Well-being (3,*,0)

The major purpose of this course is to enhance students understanding of the importance of building an engaged workforce and a healthy workplace. It covers major concepts, techniques, and practices in (1) developing and executing and engagement campaign, (2) promoting workplace wellness, and (3) delivering services associated with building a healthy and productive workforce.

HRM 7600 Global Human Resources Management (3,3,0)

Global Human Resources Management (GHRM) has been identified as a crucial factor in a firm's international success. GHRM is more complex and varied than domestic HRM and incorporates a broader scope, and increased risk exposure as well as a change of emphasis. This course will examine environmental elements and the characteristics of GHRM. It will deal with the practical issues and consequences of the internationalization of HRM.

HRMN 2005 Human Resources Management (3,3,0)

Prerequisite: BUSI 2005/BUSI 2025 Organizational Behaviour

This course is designed to provide students with an applied knowledge and understanding of Human Resources Management. The compatibility of the productive utilization of people in achieving an organization's objectives and the satisfaction of employee needs will be emphasized. The course will focus on current issues and trends as they relate to Hong Kong and the Asia Pacific region.

HRMN 3005 Human Resources Development (3,3,0)

Prerequisite: HRMN 2005 Human Resources Management

This course aims to provide a comprehensive overview of the research, theory and practices of training and development within the organization and to prepare the student as a potential practitioner in a managerial role or as a specialist working within an organization, or as an external consultant working with a range of organizations.

HRMN 3006 Recruitment and Selection (3,3,0)

Prerequisite: HRMN 2005 Human Resources Management

This course aims to introduce students to various theories, concepts and issues associated with the effective staffing of organizations. After completing this course, students are expected to have acquired the conceptual background for understanding contemporary recruitment and selection issues and the competencies to address specific staffing problems. The subject matter will be addressed through a mix of lectures, case analyses, and experiential exercises.
