

EDUC 7110 Psychology of Adolescence (2,2,0)

This course aims at increasing students' understanding of the major psychological aspects of adolescent development. It focuses on physical, cognitive, personality and social development throughout adolescence.

EDUC 7130 School Management and Decision Making (2,2,0)

This is a practical course that should focus on studying various management concepts, models and skills which could help teachers to manage the school matters properly and fulfill the needs of the school missions and visions. From general sense, this course is designed for experienced teachers whom may be the middle managers or would be promoted later on. On the other hand, the design of this course is also suitable for new teachers to study, because the course built-in various learning strategies to suit the different needs of our student-teachers.

EDUC 7140 Teaching as a Profession (2,2,0)

The course aims to help students to explore the concept of teaching as a profession and to consider contrasting definitions of and perspectives on professionalism. Drawing on these perspectives, students will explore the history and process of the professionalisation of teaching in Hong Kong.

EDUC 7150 Creative and Critical Thinking (2,2,0)

This course aims to enhance the thinking abilities of students by familiarizing them with the nature of thinking and the methods used for developing thinking capacities. It provides them with opportunities for reflecting on their own thinking as well as exploring different programmatic approaches to the teaching of thinking skills.

EDUC 7170 School Guidance (2,2,0)

This course introduces students to guidance and counselling services in secondary schools. Attention is given to underlying principles, goals, processes, techniques, developmental programmes, and ethical responsibilities.

EDUC 7180 Action Learning in the Classroom (2,2,0)

This course aims at familiarising students with the nature and methodology of action learning in the classroom. Action learning is a continuous process of learning and reflection which aims at improving educational practices to enhance student learning. The course further aims at fostering students' critical reflection on classroom practices and at developing their abilities to improve those practices.

EDUC 7200 Information Technology in Education (2,2,0)

This course explores the potential of information and communication technology (ICT) in education, focusing on its application and impact on teaching and learning. The course aims at enhancing student-teachers' understanding of the prospects and problems of applying ICT in education, and developing skills and confidence in student-teachers to use the technology in the school setting. Emphasis will be placed on the use of ICT in teaching and learning to empower teachers as facilitators in the use of technology to enhance learning and teaching.

EDUC 7210 Foundations of Information Technology in Education (2,2,0)

This course introduces learning theory and pedagogy relevant to the effective and appropriate use of information and communication technology in schools. It looks at related issues and obstacle of adopting technologies inside and outside classroom and the impact that may have on student learning. This course also provides practical knowledge and skills in the use of technology to support learning and teaching.

EDUC 7230 Advanced Communication Skills (2,2,0)

Prerequisite: EDUC 2040 Classroom Communication and Management

This course builds on the course EDUC 2040 Classroom

Communication and Management. It begins with an overview of the fundamentals of communication set in a wider context and moves on to practical applications.

EDUC 7250 Inclusive Education (2,2,0)

This course introduces students to the study of the inclusion of students with special needs and explores the development and the role of inclusive education in the context of a whole school approach. It also aims to enhance student-teachers' understanding of the individual requirements of students with diverse needs. Emphasis is placed on effective classroom strategies that have been used by teachers, schools, and communities that have been most effective in the implementation of their inclusion policies. It is designed to provide an understanding of the reasons for inclusion of students with disabilities in regular schools, and the strategies that can be used to optimize their educational experiences.

EDUC 7290 Moral and Civic Education (2,2,0)

This course introduces major theoretical approaches and concepts integral to moral and civic education and examines critical issues in its design and implementation.

EDUC 7310 School Experience (0,0,0)

This course is one of the four components of the Integrated Practicum for giving student-teachers an early and rich induction into the school system before their formal teaching practice. Student-teachers will spend four weeks in schools tasting the teachers' life. They will work as an assistant to take care of the extra-curricular activities, meetings, projects as well as classroom teaching. Student-teachers are required to submit a portfolio which recorded down these four weeks' experience, reflections and one supervision result.

EDUC 7320 Supervised Teaching Practice (4,0,0)

This course is one of the four components of the Integrated Practicum for giving student-teachers an opportunity to put theory into practice. Student-teachers will spend eight weeks in schools and will work as a teacher to teach inside the classroom. Student-teachers are required to submit a reflective teaching portfolio which included teaching plans as well as the two assessment results after their teaching practice period.

EDUC 7341-2 Supervised Teaching Practice I & II (2,0,0)

This course is one of the four components of the Integrated Practicum for giving student-teachers an opportunity to put theory into practice. Student-teachers will spend ten weeks in schools and will work as a teacher to teach inside the classroom. Student-teachers are required to submit a reflective teaching portfolio which included teaching plans as well as the two assessment results after their teaching practice period.

EDUC 7360 Curriculum and Assessment (3,3,0)

This course provides students with knowledge about school curriculum in general. This course also introduces students to the principles and instruments of assessment commonly used in schools. Emphasis will be put on examples drawn from the Hong Kong context.

EDUC 7370 Classroom Management and Communication (3,3,0)

This course focuses on managing the classroom environment for positive teaching and learning by providing an infrastructure of order and meaning. It also deals with the theoretical basis and the implementation of a range of approaches to classroom management and communication. Emphasis will be put on knowledge and skills for creating a learning environment that encourages positive social interaction and communication.

EDUC 7381-2 Subject Instruction I & II (4,4,0)

This course develops and enhances the effectiveness of students in teaching their specializing subjects in schools. It also fosters critical thinking, creativity and self-reflection in curriculum design, implementation and evaluation.
