

I.T. 1180 Information Management Technology (3,2,1)
This course is designed for the leaders of tomorrow. Its special aim is to prepare students for the challenges of tomorrow's workplace by equipping them with practical knowledge and skills to engage in fast-moving information technology (IT). Its main thrust is the incorporation of essential as well as tailor-made, forward-looking IT concepts illustrated with real-world examples and coupled with hands-on experiences in the support of the information management cycle.

I.T. 1510 World Wide Web Applications Development (3,2,2)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course aims at introducing the fast growing World Wide Web together with the methodologies and techniques for developing applications on the web. Students of this course are expected to be competent computer users. On completion of the course, they will understand the fundamental concepts of World Wide Web and how it can be used as an effective communication channel. They will also be capable of developing well-structured websites for corporations and organizations.

I.T. 1530 Database Management (3,2,1)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course introduces how to represent the data in a database for a given application and how to manage and use a database management system. Topics include conceptual modelling of a database, relational data model, relational algebra, database language SQL and relation database design. In addition, hands-on DBMS experience is included. Students who have received credits for I.T. 1530 are not allowed to take COMP 1160, or vice versa.

I.T. 1540 Programming Fundamentals and Problem Solving (3,2,1)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course introduces the methodology of problem formulation and specification, program design, and implementation skills including debugging and testing. The course is taught through a high-level structured programming language. This course is not available to Computing Studies, Computer Science and Physics major with Computer Science concentration.

I.T. 1570 IT and the Business World (3,2,1)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This elective course aims to provide students with an understanding of the relationship between information technology (IT) and business. In particular, the relationship between IT and business successes will be investigated. On completion of this course, students will be able to determine the appropriate IT for the successes of different types of business.

I.T. 1580 You and the Internet (3,2,1)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course introduces how the Internet enhances our daily life, increases work efficiency and creates business opportunities to non-IT major students. Students will also learn how to protect their personal privacy, personal computers, and home networks in the Internet, and learn the fundamental principles of mobile and wireless networks.

I.T. 1590 Searching and Managing Information (3,2,1)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course provides a comprehensive examination of different popular search systems such as Google and YouTube. Students will be introduced to the powerful features in these systems, as well as the technology underpinning them. Students will learn

how large information repositories are efficiently organized, managed and searched. They will also learn the principles of search engines, information retrieval, and how to use simple database management systems such as Access.

I.T. 1710 IT Innovations Shaping Our World (3,2,1)

This course aims to equip students with knowledge on the key IT innovations that are shaping our world, including the latest development of digital media technology, the advancement of digital communication technology, and the development of smart IT systems. For digital media technology, this course covers latest standards and basic scientific principles of digital imaging, digital TV and digital music. This course also introduces the key IT innovations in telecommunications and wireless technologies.

I.T. 2460 Managing Information Systems in the Digital World (3,3,0)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

The course deals with the management of information systems and technology as it is being practised in organizations today to create value for businesses and consumers.

I.T. 2510 Music, Photo and Movie Processing (3,2,2)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

After completion of this course, students will have a good understanding on the basic concepts of music, photo and movie processing. Students will also be able to use software tools to process music, photo and movie data such as music file compression/conversion, photo enhancement and movie editing. This course is open to non-Visual Arts and non-CS Majors only.

I.T. 2530 Internet and E-Commerce (3,2,1)

Prerequisites: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

Students will learn the basic concepts of Internet and e-commerce technologies, and gain hands-on experience in setting up systems for Internet and e-commerce applications.

I.T. 2550 Fundamentals of Multimedia (3,2,2)

Prerequisite: I.T. 1180 Information Management Technology

On completion of this course, students will have a good understanding on the basic concepts of the fundamental elements in multimedia. Students will also be able to use software tools to process image, video and audio data such as image enhancement, video editing and audio file compression/conversion, and develop multimedia projects.

I.T. 2560 Building Interactive and Attractive Web Graphics (3,2,2)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course aims at introducing the theories and techniques for developing interactive and attractive graphics on the Web. On completion of the course, students will understand concepts behind Web interactive graphics. They will also be capable of developing such interactive graphics for effective communication and entertainment.

I.T. 2710 Enterprise Application Systems (3,3,0)

Prerequisite: I.T. 1120 Business Information Systems or I.T. 1180 Information Management Technology

This course introduces how information technology is used in many aspects of a business, with particular emphasis on concepts and practices for modelling, specifying and integrating within-enterprise and B2B business processes for customer relationship management, enterprise resource planning, and supply chain management.
